TRADING & INVESTMENTS, LLC

MISSION

Our mission is to create and preserve wealth for our clients through successful long-term trading in the futures markets.

We are committed to helping speculative investors achieve true diversification by participating in markets which move independently of stocks.

Our objective with respect to profitability is to significantly outperform traditional investments over five and ten year periods. We must accept greater risk in order to achieve this goal. We recognize that this objective may not be achieved, and that there is a substantial risk of loss in futures trading.

We pledge to invest our own capital in the trading opportunities offered to our clients.

Finally, we will make every effort to ensure that this investment is an educational experience for those who wish to broaden their horizons.

Past Performance Is Not Necessarily Indicative Of Future Results.
